

"Did not"

"Did you not talk with a reporter on reaching here?"
 "Yes I was caught by a newspaper man," admitted Mr. Reice.
 "Did you mention lynching?"
 "No I did not."
 "Didn't you have a talk with a Saturday News man?"
 "I don't know what paper he represented."

Mr. Robertson stated, at the conclusion of his examination of Sheriff Fox that the newspaper man in question would be found and brought to court to tell just what Mr. Fox did about lynching.
 Mr. Parlee at the conclusion of the examination of the Oklahoma sheriff, asked for an adjournment until this morning. James Chapman was the next witness to be called for the prosecution and the doctor attending him had said that he was not in a fit condition to attend the sitting of the court. He would probably be able to come this morning.

Chapman will accordingly be called this morning when the court opens at ten o'clock to take the stand and testify against Mr. Matthews. This it is understood he will not do even under compulsion as he has at present the belief that Mrs. Matthews is ready to marry him should they be released from the charge brought against them.

Opening his cross-examination of Mr. Reice, Mr. Robertson said that he proposed to read to the witness the finding of the Stillwater doctors at the inquest into the death of Lawrence Matthews.

Mr. Parlee objected to the reading of this finding on the ground that it could not be admitted as evidence. Mr. Robertson however was allowed to read the finding as a means of refreshing the memory of the witness. Mr. Reice admitted that the testimony read was in substance what he remembered being given at the inquest at which he himself was present.

Before permission of the court to make a statement Mr. Reice asked the hour of the six o'clock jury had afterwards brought themselves to be dissatisfied with the finding.

The verdict of the coroner's jury and the finding of the physicians were filed by Mr. Robertson as Exhibit "A" for the purpose of identification. With reference to the trip to Guthrie, the state capital, made by Mr. Reice in January, 1909, the witness stated that he had travelled in the same car with Mrs. Matthews from Stillwater. They were in what was called the "white car." Chapman was in the "negro car."

Neither of them had returned to Stillwater that day. He knew this because he came back himself that night on the only train returning at Stillwater.

Closely questioned by Mr. Robertson, Attorney Reice admitted that all the affidavits and depositions filed with the court had been prepared subsequent to the publication in the papers of the state, the telegrams received from the petes attorneys in Edmonton relative to the arrest of Chapman and Mrs. Matthews in Edmonton.

And the papers spread the story about first" asked Mr. Robertson.

"The papers there are much the same as here," remarked the Oklahoma attorney.
 Mrs. Matthews attended the court with both her children, one sitting on each side of her throughout the proceedings. The court room was crowded to the doors from the time of opening, until adjournment was made about five o'clock.

SETTLING CALGARY STRIKE.

Union Men Offer Fair Compromise—Likely to be Accepted.

Calgary, May 18.—A meeting of the Painters' union and the Master Painters' association was held last night behind closed doors to discuss the settlement of the strike now on. The Master Painters' association gave out the following statement—

"Owing to our association not having a full attendance we could not give the union any decided answer, but we meet again tonight at seven o'clock and will have an answer for them then. Everything looks like a settlement and matters are favorable."

"The union have agreed to a nine-hour day, as has been in force in the past and the only remaining point of difference is that of wages. They have indicated that they will compromise on 45 cents an hour, and I think that when our association gets together we will accept this. All present tonight were favorable to it, but there was not enough of us to close the agreement."

The union when they went out asked for an eight hour day at 50 cents an hour, with Saturday afternoon off. The master painters agreed to give that, but refused to pay more than 40 cents an hour, the rate of wages then in force, and they also refused to make an eight hour day. The meeting tonight will conclude the tie-up in this class of building trade unless something happens.

No Longer Favors Prohibition.

Montgomery, Ala., May 18.—The Democratic state convention in Montgomery today met to ratify the results of the recent state primary and to adopt a party platform. In pursuance of the majority sentiment as expressed in the recent primary it is anticipated the platform will declare in favor of local option, as opposed to the state-wide prohibition law now in force in Alabama.

Academy's Silver Jubilee.

Leonardtown, Md., May 17.—Cardinal Gibbons was the presiding officer and chief speaker at the celebration here today of the silver jubilee of St. Mary's academy, one of the best known Catholic educational institutions in the country.

Woolen Mills Burned.

Georgetown, Ont., May 18.—The Sykes woolen mills here were destroyed by fire at 11:30 o'clock this morning. The total loss is estimated at about \$30,000, largely covered by insurance.

SOUTHERN CROPS GOOD.

Recent Rainfall Awakens optimism in the South.

Lynchburg, May 17.—The recent rains have been of much benefit to the crops and according to the opinion of farmers and men best qualified to know, on all laid that has been property and scientifically cultivated, splendid yields are assured, even though there is but little more moisture to come this summer. The extremely early spring, followed by the rainless spell, did no harm whatever, except to cause a considerable portion of the winter wheat to be reseeded. As near as can be estimated sixty or seventy per cent. of the wheat seeded last fall was treated that way, but the remainder, which was put in at the right time and in the right way, is now looking as well as winter wheat we ever known to look in Southern Alabama. In fact, farmers from all directions report having seen winter wheat fields the equal of which they have never seen before. Most of the spring wheat, practically all of that which has been recently sown in or sown in a slipshod manner, and there is naturally much of that in the country, will require considerable more moisture to see it through, although the recent rains will suffice for the next three or four weeks.

C. H. Daniel, of the Alabama Securities Co., when asked this morning about the crops, replied enthusiastically that both the fall and spring wheat around Cahulale, Chin and Wilson are looking good. The "falfa" crops are looking as fine as it is possible. There is a good quantity of mature in the ground and the more the land has been cultivated the more mature there is. While considerable fall wheat in the districts alluded to was reseeded, there is some fall wheat left that is without doubt the best ever sown. Never in all his life did he see such a good crop of winter wheat as there is at the experimental farm east of the city.

At Hoaglin, of Burdett, is the city, and says that the grain, which around Burdett is almost all spring grain, is looking splendid. They have had two good rains in the last ten days, the last being on Sunday when it rained steadily all the forenoon. Adjoining the town of Burdett is a section of the country where wheat belongs to Roy McGregor, which he is willing to wager is the best in the province. It was put in on March 1st and is now four or five inches in height. All the crops around Burdett are looking fine, but Mr. McGregor's piece beats them all.

Texas Chiefs of Police Meet.

Sherman, Tex., May 18.—City marshals and chiefs of police from nearly all the important cities and towns of Texas are in attendance at the sixteenth annual convention of the Association of Texas, which opened here today and will remain in session until Friday. Many of the officers are accompanied by the wives and daughters.

STRATHCONA NEWS.

LOCALS.

There will be two memorial services in Strathcona tomorrow. The first will be in Holy Trinity church at half past ten o'clock and the second in the Collegiate Institute at half past eleven.

A procession consisting of the civic officials, the various fraternal societies of the city, the university of faculty and students and the pupils of the Collegiate Institute and public schools, will gather at Richards' hall at 10 o'clock. From here they will proceed to Holy Trinity church, where a religious service commencing at 10:30 o'clock and lasting for three-quarters of an hour, will be conducted by Rev. W. K. George. At the conclusion of this service the procession will march to the Collegiate Institute building, where addresses will be given and another service will be held. Among those to address the gathering will be Dr. T. J. of the University, Premier Rutherford, Mayor Duggan and others. All the present ministers and the singing priest at St. Anthony's church have been invited to assist in the services at the collegiate. The details of the procession are in the hands of Mayor Jamieson.

Work on the new residence of Premier Rutherford near the Methodist church is being carried on by Thomas Richards. The ground work will be completed in the course of a few days.

Rev. Dr. Allan, secretary of Home Missions for the Methodist church in Canada, will preach in Metropolitan Methodist church on Sunday.

Brick laying has been recommenced at the University dormitory. The cement work is completed and a large part of the kitchen marble for dressing and window sills is already on the ground. About fifteen acres of the campus have been cleared.

The arts examination began at the university yesterday. About eighty students are writing, most of whom have just completed their first year's work.

The "B" squadron A.M.R. are now holding fifteen-mile drills on Monday, Wednesday and Friday nights.

Conference on Railroad Bill.

Wichita, Kan., May 18.—Twenty Democratic senators conferred for three days tonight in an effort to reach an agreement as to the policy to be pursued in the future with regard to the railroad bill. No definite conclusion was reached when adjournment was taken at 10 o'clock. Several will not be taken at the Senate tomorrow for a vote on the pending amendments, as other conferences are to follow.

General Festival in Quebec Saturday.

Quebec, Que., May 18.—It is expected that the local residents will be impressed on Saturday by General Sir John French, who is now on his way to Quebec from England.

READ BULLETIN WANT

Intending Homesteaders and Settlers — Stop and Look this over Carefully

You have now the last opportunity of securing some of the finest land in the world at a reasonable figure. There is only one other way of acquiring Government Land and that is by pre-emption. This costs you \$3.00 per acre and duties similar to those required by the homestead regulations and the same as those required under the South African Veteran Bounty Warrant Act, have to be fulfilled.

Every settler should buy two scrip NOW and "prove up" on them and still retain his rights of homesteading and pre-empting. By doing so, he secures 640 acres of land as compared with only 320 acres secured by homesteading and pre-empting.

Do not forget that there is Lots of Land and only a limited supply of Scrip

A great many persons are under the impression that scrip is good only till December 31st, 1910

This is not so, an extension of one year has been granted, which makes it good until December 31st, 1911

The total number of scripts available is now only some 2000 odd. And the present rate of consumption averages 70 per week. You can readily see that at this rate script will not last very long and as the supply decreases the price will naturally advance. This fact alone should prove to you that at the present price script is the best buying offered whether you use it yourself or not. **WRITE OR WIRE**

COMET SCARE SENDS NEGROES INTO PANIC

Electrical Disturbances in New Orleans Cause Great Apprehensions. One Enterprising New Orleans Seller of Comet Pills and Charm Guaranteed to Prevent Disaster.

New Orleans, La., May 18.—(Electrical disturbances, a smoky pall, which settled over the city, and brilliant flashes of forked lightning, accompanied by crashing peals of thunder, flung the negro population into a panic here this afternoon and evening. Many rushed to places of shelter cry-

prayer. Others thought the end of the world was about to come and that the comet's tail had begun to envelop the earth. Many blacks quit work, as soon as it began, to grow dark, so as to be with their families when the end came. Hundreds gathered in the churches to pray, and to await the result of the collision. In the French quarter one enterprising negro started the sale of

off the celestial visitor. Many creole people of the lower order of intelligence purchased the charms as well as the negroes and octoroons and the fakir did a rushing business.

Business came to a standstill in many saw mill towns throughout the state today on account of the comet scare. Most of the laborers are blacks or poor whites and they refused to work until they could see what was going to happen. At Amite City three big plan-

ing mills quit work and at Bogdanov, where the big mill of the Great Southern Lumber company, was destroyed by fire early yesterday, the negroes and ignorant Italians believe, that the comet was responsible for the fire.

Russian Duelists Imprisoned.

St. Petersburg, May 18.—Alexander Guchkoff, president of the Duma and Count Uvaroff, a member who settled a political quarrel on the field of

honor, will pass a part of the summer recess in imprisonment. A district court today found the ministers guilty of duelling and sentenced Guechokoff to four weeks confinement in the fortress and the count to three weeks in the central guard prison. They will not appeal. Count Uvaroff, who was the challenger, received a bullet in the shoulder in the encounter.

Toronto, Ont., May 17.—From present indications it looks as if Fort Frances power will not be allowed to go into the United States. Nothing definite could be ascertained today regarding the matter, as the question is still under consideration by the department of lands and mines, and no decision has been arrived at. It is necessary to have a license from the provincial government before power can be exported.

TWO NEW FAST LINERS FOR CANADIAN ROUTE

Will Make as Quick Time to Quebec as Lusitania Can to New York—The new liner will be the fastest on the Atlantic Ocean. Over 2,000 Passengers.

Montreal, May 18.—The expectation is that the two new Allan liners for the Atlantic Ocean will be the fastest on the Atlantic Ocean. They will make the run from Liverpool to Quebec in 10 days and 2 1/2 days. The new liner will be the fastest on the Atlantic Ocean. They will make the run from Liverpool to Quebec in 10 days and 2 1/2 days. The new liner will be the fastest on the Atlantic Ocean. They will make the run from Liverpool to Quebec in 10 days and 2 1/2 days.

It is expected that the two new Allan liners will not come to Montreal, but will only call at Quebec. Cables announcing this move by the Allan line have been received by Mr. George Hannan, general passenger agent of the line. Mr. Hannan stated that this order had been under consideration for some time past, and that yesterday Mr. Hugh A. Allan, chairman of the company, who has been for some time past in England, had invited tenders for the construction of the new boats.

Speed 21 Knots. According to the notices sent out by Mr. Hannan, the new liner is to be of 30,000 tons of displacement, with a speed of at least 21 knots an hour. This will probably mean that they will develop 22 knots. If they make 22 knots they will cut out 20 hours from the time between Liverpool and Quebec, and will be able to make the 22 knot speed they will reduce the time by nearly half a day from the 2,000 ton liner.

The new vessels will be about 700 feet long, as compared with 560 feet for the present liner, and will be the length of the bigger boat now on the Canadian service, and will draw about 30 feet. It is not yet known what horsepower they will develop, or whether they will be of the reciprocating or turbine combination type, these details being left for the contractors to figure out. The Allan simply state that they require two steamships of 30,000 tons, with a speed of 21 knots or more, and a capacity for 2,000 passengers. It is for the contractors to work out how these requirements are to be met. But the provision is made in the notice sent out by Mr. Allan that the vessels must be in all respects of the highest type, furnished by British workmanship, both as to safety and luxuriance of fittings.

The new ships will be designed to carry 400 first-class, 400 second-class and 1,200 stowage passengers, making a total of 2,000. This compares with 1,800 as the largest passenger list yet carried from Great Britain by the Canadian line, which was brought over by the Canadian on her last trip to the west coast. The new vessels will carry 500 more passengers than any vessel now plying between Great Britain and Canada.

Canadian Mauretians. "The whole scheme," said Mr. Hannan, "is to build two steamships of the Lusitania and Mauretania type for the Canadian route. Of course, the two new York boats are 22 knots and 2,000 tons, while the two Allan liners will be 21 or 22 knots and between 30,000 and 32,000 tons. As for the actual size, the speed of the new ships will enable them to compete with the new York boats on the shorter run to Quebec. And, as to their comfort, it is provided that they must be as fine as British workmanship can produce, with all the latest fittings will be at least equal to those of the crack New York liners.

There are only four or five firms in Great Britain capable of building the ships as the Allan line are calling for, so that it is not unlikely that the same people who built the Mauretania and Lusitania may produce the new liners for the Canadian route. But, however, will on a matter that can only be decided when the tenders are opened. It was stated last night by Mr. Hannan that it would take at least 18 months to build such vessels, and that it will probably be some time before they are actually in commission for the Canadian route. What the crack Canadians are now doing for the New York service.

It was stated by the Allan that the building of the new fast liners would be a good deal upon the Canadian subsidies, the idea being that the Canadian Government would make a contribution to these subsidies so as to make it worth while for the Canadian line to put on these fast vessels to carry the mails as well as passengers and freight.

TORONTO SAW AURORA.

Brightness and Greenish Tinge Credited to the Comet. Toronto, May 18.—Passing through the comet's tail produced an unusual brightness across the sky, as the comet passed at about 10.40 p.m., said Professor J. H. Blair, astronomer for the Dominion Meteorological Department. "The aurora was most brilliant and contained all the colors of the rainbow. There were many strange lights and it had the appearance of our aurora and comet. For nearly an hour it was quite prominent, and there is no doubt the peculiar greenish tinge and glow was caused by the earth passing through the comet's tail. There were meteor flashes also to be seen tonight."

Bowmanville Began.

Bowmanville, Ont., May 18.—C. B. Walker, a clerk in J. B. May's office, was arrested today on a charge of bigamy. He is said to have a wife and three children in the United States, and a wife and child here. The information was laid by his first wife.

DISTRICT NEWS

CLYDE.

Bulletin News Service. There is considerable activity here just now, the C.N.E. grading camp are located. McCormick's mill being south of the street on Mr. Pelt's quarry and Cummings' just north on Bob Ogden's. The work is to be rushed to completion and it is expected a week or two will see the grade ready for the steel.

All grades are being laid out. An enjoyable dance was given on Wednesday, the 18th by John and Lou. Cuddy here was a large attendance and a capital success.

The wide and Edison plant is to be held on the 20th when lots of attractions should ensure a big crowd. John Gibson was elected general manager. Clyde, May 18th.

PONOKA.

Bulletin News Service. Ponoka is enjoying the first good rain of the season. The rain started Tuesday afternoon and lasted all night. It was a heavy shower of thousands of dollars to the country.

There is a large amount of land changing hands here. The buyers generally are from Utah and San Jose. Mr. Fode, who has had charge of the work at the asylum the past year and a half, has returned to his home in Utah. He was most missed here as his genial and pleasant manner was him many friends.

REXBORO.

Bulletin News Service. Mr. Bramer, who has been nursing Mrs. Bramer in her sickness, returned to Rexboro. Mrs. Bramer's condition is still very critical. Mr. W. Merryweather has a nephew from England visiting here. E. McClelland, general road foreman, is expected to work on the line this week.

R. Smith is at Manly, painting the schoolhouse and Mr. Miller's residence. Several people from Edmonton are here enjoying the fishing and fishing of the blue waters of Watbanan Lake. The people of this place expect to celebrate the 25th of May by holding a picnic and entertainment at the new school house. Mr. Weirich was a Wolf Creek visitor last week.

Fred Hanson and wife expect to move to town for the summer. The new school building had a narrow escape from fire last week. A high wind from the northwest swept a fire down upon them and only by hard work after the buildings saved.

Mr. Murphy is at Edmonton, was out to look after his coal interests here. "Cops are looking better than they have since this district was opened up." Rexboro, May 18.

BULLETIN NEWS SERVICE.

Rev. Mr. Carlson, of Canmore, who is in charge of lecturing the Lutheran college, was in town Monday. The one offered by the G. T. P. very largely impressed the committee. Ripley citizens have been liberally supplied with the college. The proposed site is on high ground overlooking the town and the college. The college building could be seen from many miles. Being less than 10 miles from the junction of the G.T.P. and C. N. Railways gives excellent location for all directions.

R. Eastman, of Ripley, was very seriously injured on Tuesday. While driving away from a picnic at Barrie with four men in a buggy, a horse reared and the Eastman was precipitated head first over the dashboard. He was unconscious for two hours. Dr. Hammond was summoned from Toronto.

MANLY.

Bulletin News Service. On Monday, May 16th, the scholars gave a concert to celebrate the last day at school before the holidays. The concert was most enjoyed by those attending. The program was as follows: Miss Jennie Reid being the soloist, the choir singing "The Maple Leaf" by the school. The Maple Leaf recitations by Sophia Lytko and Hiram Pyle; song by Margaret Reid and Edith Reid; recitations by Harbyden, song by the school. The school song, "The Maple Leaf," was sung by Miss Jennie Reid, Margaret Reid, Frank Walker and Mike Blythe; song by the school. The school song, "The Maple Leaf," was sung by Miss Jennie Reid, Margaret Reid, Frank Walker and Mike Blythe; song by the school.

The children prepared this concert entirely themselves. Speeches contributed to the teacher and scholars were made by some of those present. Miss Reid, who is teaching at the last of the east, where she will spend her three months' vacation before returning. Mr. and Mrs. Charles Holling are the proud possessors of a baby girl. Work on the road going north and south from Pine Ridge to Carvel is now being done. C. Walker, who lately returned home from the West, has gone away again to Spruce Grove. Fires have been busy in this vicinity. Mr. Pelt, north of here, having had his house burned down. And now on his homestead at Pine Ridge, had his house nearly finished. Having a neighborly visit on his return found more than half of his house burned down.

On Saturday, May 14th, the schoolhouse had a narrow escape from burning, and it had not been for the prompt action of Messrs. Reid and Walker there would have been no saving it. As the fire was within a few feet of the wood pile which is immediately behind the school. The wind was blowing directly toward it. The children brought pails of water while the men fought the fire. Mr. Walker was going north when he noticed Mr. Reid's pail of water. The men were just in time to prevent the loss of the building, the children helping as before. Two automobiles passed through Manly on Sunday, greatly adding to the excitement of the children. Manly, May 17.

THE STORE THAT AIDS ECONOMISTS

CALEDONIAN

DEPARTMENT STORE

401-409 NAMAYO AVE.

Final Clearing Price on Spring Suits

Some suit sales are genuine, some are not; but when you get an open invitation to select any suit in this store worth up to \$30.00 for \$12.75 and our reputation behind it, we hope you will consider the invitation and remembering our reputation for value giving, come and investigate.

BASEBALL

Some of the fans in the bleachers thought that was a seasonal affair and the last. It was merely the light shining on Treasurer John Dawar's gold.

Clyde, Calgary's left downer, was the game's first hit. The batter was out for five times up, and only for a spectacular catch by Lenz, he would have had a perfect average.

Although the climate of late has been somewhat so-so, the day was a day of calgary, teams and bats, and also a hard week. It is a fact that the ball weather, at least not to B. N. A.

Frank Bancroft, general manager of the Edmonton club, received a letter from the St. Louis Cardinals, dated May 15th, that they had signed him to a contract for the season.

Today's speaking of the "Imps" is a relief to have a man like Smith in the job after the sorry spectacles witnessed last season. Smith apparently knew his business. He missed a few, but on the whole his work was well done.

GOUCHIE AND BARNSTAD. The necessity of getting his staff down to twelve men, to say nothing of cutting down expenses, is more or less responsible for one release of Pitcher Barnstead and catcher Edward Gouchie, who were let out by Manager W. A. Lenz last night's game.

It is a fact that Gouchie has been a disappointment to his friends—and he has a host of them—this year. His hitting has been around the job mark and his speed on bases has been away below par. It is a fact that he has managed his old-time form, but as the season has a couple of other backslaps who can catch him, he is not likely to be let go.

There were few twirlers all of equal ability, some had to be dropped, and Barnstead happened to be one of them. His disappearance from the local line will be regretted by every follower of the game in Edmonton, but he should have no difficulty in getting a berth with some of the other teams.

Pitcher Barnstead, who was released last night's game, will likely see the sun again. He is an excellent pitcher, and his club spirit, and the followers of the game here hope to see him give a try-out.

Manager White will replace Gouchie with a pitcher named W. A. Lenz, who was let out by Manager W. A. Lenz last night's game. White and Spencer will take it out for the season. The job of being a pitcher is a hard one, and the followers of the game here hope to see him give a try-out.

Winning, May 18—Winning enjoyed their shut-out at the expense of Brandon. The game was a 10-0 victory, and they piled up 20 runs. The score, however, is a 10-0 victory, and they piled up 20 runs.
